

March 15, 2022

TO THE MEMBERS OF THE U.S. HOUSE OF REPRESENTATIVES:

We, the undersigned associations, urge you to oppose H.R. 963, the “Forced Arbitration Injustice Repeal (FAIR) Act,” which would effectively ban arbitration provisions in private contracts. Federal law has protected arbitration as a means of resolving disputes between businesses, consumers, and employees since 1925. Should it become law, this bill would not benefit claimants and would instead produce more class action lawsuits to the benefit of the lawyers who bring them.

The use of pre-dispute arbitration clauses in contracts benefits consumers, small businesses, and employees. For example, recent studies have found that employees and consumers prevailed more often, recovered more money, and resolved their claims more quickly in arbitration than in litigation.¹ In addition, courts work to ensure that arbitration agreements of all types are fair and do not provide an advantage to any party.

The only clear beneficiaries of broadly eliminating cost-effective and fair arbitration as a viable way to resolve disputes are class action lawyers, who would directly benefit from increased class action litigation. Studies have shown that class action settlements frequently provide, at best, a very low return to class members while class action attorneys take in millions of dollars. Their gain would come at the expense of consumers, small businesses, and employees, many of whom are not even eligible to participate in class action litigation. In addition, because their claims are too small to attract individual legal representation, they would be left without a remedy altogether if arbitration were eliminated.

Accordingly, we urge you to vote NO on H.R. 963.

Sincerely,
